Attorneys for Valley Utilities Water Company, Inc.

**BEFORE THE ARIZONA CORPORATION COMMISSION**

IN THE MATTER OF THE APPLICATION  
OF VALLEY UTILITIES WATER  
COMPANY, INC., AN ARIZONA  
CORPORATION, FOR A DETERMINATION  
OF THE FAIR VALUE OF ITS UTILITY  
PLANT AND PROPERTY AND FOR AN  
INCREASE IN ITS RATES AND CHARGES  
FOR UTILITY SERVICE BASED THEREON.

DOCKET NO. W-01412A-12-0195

**NOTICE OF FILING ARSENIC  
IMPACT FEE TARIFF PLAN OF  
ADMINISTRATION**

Pursuant to Decision No. 73913 ("Order"), Valley Utilities Water Company, Inc. ("Valley" or the "Company") hereby files this Notice of Filing its Arsenic Impact Fee Tariff Plan of Administration in the above-referenced matter. The Order directs the Company to file "a document proposing either the cancellation of Valley Utilities Water Company's AIF Tariff or another means of resolving the AIF Tariff so that it is not permitted to continue indefinitely." This filing contains Valley's proposal to continue collecting arsenic impact fees until such time that the Company can recover costs incurred for the construction of arsenic treatment facilities after 2011.

**PLAN OF ADMINISTRATION**

Since 2011, the Company has spent \$106,000, the majority of which was to complete construction of arsenic treatment facilities at its Bethany Hills West facility. The Company estimates that it will spend approximately an additional \$44,000 to

1 complete construction of arsenic treatment facilities at its Glendale Well Yard facility,  
2 with an estimated completion date of December 31, 2013. The total construction cost for  
3 both facilities is approximately \$150,000.

4 The Company is proposing to collect funds pursuant to its AIF Tariff to pay for the  
5 costs noted above. Since 2011, the Company has collected \$10,120 in arsenic impact  
6 fees, leaving a balance of approximately \$139,880. The Company proposes that once it  
7 has the actual construction costs for the arsenic treatment plant at its Glendale Well Yard  
8 facility, it will submit proof of all post-2011 costs to the Commission Staff. The parties  
9 can then work together to finalize a "Total Cost AIF Recovery" figure that, once reached,  
10 will trigger an immediate termination of the AIF Tariff. Valley will continue to collect  
11 funds and provide an annual accounting filing in this docket until such time that the total  
12 costs are recovered, and the AIF Tariff automatically terminates.

13 RESPECTFULLY SUBMITTED this 10<sup>th</sup> day of July, 2013.
